

APPLICATION OF THE ECOSYSTEM DIAGNOSIS AND TREATMENT METHOD TO
COHO SALMON IN THE HOOD CANAL WATERSHED

Prepared by

Melinda L. Rowse
Lawrence C. Lestelle*
Chris Weller
and
Chris Amato

Technical Report
Point No Point Treaty Council
Kingston, WA

January 2001

* Mobrand Biometrics, Inc., Vashon Island, WA.

TABLE OF CONTENTS

	<u>PAGE</u>
List of Tables	iv
List of Figures	v
List of Appendices	viii
List of Participants	ix
EXECUTIVE SUMMARY	xi
Part I. INTRODUCTION	1
I.A. OBJECTIVES AND APPLICATION	2
I.B. APPROACH	3
I.C. ORGANIZATION OF REPORT	3
Part II. OVERVIEW OF THE ECOSYSTEM DIAGNOSIS AND TREATMENT (EDT)	
APPROACH	5
II.A. PREMISES	5
Ecosystem Strategy	5
Diagnostic Species	5
Sustainability	5
Scientific Method	6
Adaptive Management	6
II.B. EDT COMPONENTS	6
Tasks	7
Theory	7
Tools	7
II.C. CONCEPTUAL FRAMEWORK	7
II.C.(1) Linking Actions to Outcomes	8
II.C.(2) Biological Performance	8
Part III. DESCRIPTION OF THE HOOD CANAL BASIN	12
North Hood Canal	14
East Hood Canal	14
South Hood Canal	14
Skokomish River	14
West Hood Canal	20
Part IV. METHODS	22
IV.A. EDT METHODOLOGY AS APPLIED TO HOOD CANAL COHO	
SALMON	22
IV.B. INFORMATION SUMMARIZATION	22
IV.C. PATIENT - TEMPLATE ANALYSIS (PTA)	23
IV.C.(1) PTA Process	23

TABLE OF CONTENTS (cont.)

	<u>PAGE</u>
IV.C.(2) Terminology	25
IV.C.(3) Assessment Measures	25
Relative Productivity.....	27
Relative Quality of Environmental Attributes.....	27
Quantity of Habitat	27
Relative Quantity of Key Habitat.....	29
IV.C.(4) Database Maintenance and Data Analysis.....	31
Description of PTA Graphics	31
Stream Reach Ranges	36
IV.D. DIAGNOSIS.....	41
IV.D.(1) Overview of Diagnostic Steps	41
Step 1: Definition of Life History Pathways	41
Step 2: Computation of Salmon Performance Indices	43
Step 3: Performance Plots.....	46
Step 4: Diagnostic Summaries	49
Part V. RESULTS	50
V.A. PATIENT - TEMPLATE ANALYSIS	50
V.B. DIAGNOSIS.....	50
V.B.(1) Purpose.....	50
V.B.(2) Diagnostic Steps.....	50
Life History Pathways and Coho Performance Indices	50
Performance Plots.....	51
Diagnostic Summaries	66
Hood Canal Basin Summary	66
North Hood Canal Subregion.....	67
East Hood Canal Subregion	68
South Hood Canal Subregion.....	68
Skokomish River Subregion.....	69
West Hood Canal Subregion	70
Part VI. TREATMENT SELECTION.....	73
VI.A. PURPOSE	73
VI.B. PRIORITIZATION PRINCIPLES	73
VI.C. TREATMENT IDENTIFICATION STEPS.....	74
Step 1: Assigning Weights to All Life History Pathways.....	74
Step 2: Computation of Reach Scores	75
Step 3: Review of Reach Importance Plot, and Histogram of Coho Usage Scores.....	75
Step 4: Summary Tables of Reach Priorities.....	78

TABLE OF CONTENTS (cont.)

	<u>PAGE</u>
Part VII. RECOMMENDATIONS FOR APPLICATION.....	80
VII.A LAND/WATER AND HABITAT MANAGEMENT	81
VII.B HARVEST MANAGEMENT PLANNING.....	82
VII.C COHO SALMON SUPPLEMENTATION PLANNING	83
 LITERATURE CITED.....	 85
 APPENDICES	

LIST OF TABLES

<u>TABLE</u>		<u>PAGE</u>
Table 1.	Definition of coho salmon life stages within the Hood Canal basin, and corresponding time periods in months present and associated statistical weeks.....	24
Table 2.	Description of environmental quality attributes affecting responses of coho salmon in freshwater habitats of the Hood Canal basin.....	28
Table 3.	Ratings of the relative effects of the quality of environmental attributes on density-independent survival of coho salmon.....	29
Table 4.	Descriptions of key habitat used by coho salmon by life stage within the Hood Canal basin.....	30
Table 5.	Ratings for relative quantity of key habitat for coho salmon in western Washington streams.....	30
Table 6.	List of stream reach ranges, by subregion, used in the analysis of coho salmon in Hood Canal.....	38
Table 7.	List of stream, by subregion, that were not included in the current analysis of coho salmon in Hood Canal.....	40
Table 8.	Five generalized life history patterns of coho salmon used in the diagnostic analysis of the Hood Canal watersheds. Note: This is not intended to be a completed list of all patterns within the Hood Canal watersheds.....	42
Table 9.	Criteria used to define coho life history pathways in Hood Canal watersheds.....	44
Table 10.	Example of summary table showing the evaluation of a reach based on its importance to existing life history pathways.....	79
